

The background of the cover is a dark, textured black. A large, light-colored, stylized letter 'B' is the central graphic element. To the left of the 'B', there are several vertical bars of varying widths, some of which are slightly tilted. The year '1970' is printed in a white, sans-serif font in the upper right corner.

FOREWORD

We, the graduating class of 1970, from the motivation of our past years at Foster and with the altruistic assistance of the yearbook staff, faculty, administration, and student body are privileged to present to you this cherished memoir of the "Bulldog."

Our past experience has led us to know the meaning of ambition, diversity and a need for success. We, the Editors and Co-Editors wish to express our deepest gratitude and sincerity to our parents and friends for their thoughtfulness, understanding, and co-operation in our search for knowledge.

The Senior Class sincerely hopes that this edition of the 1970 "Bulldog" will be a treasured memory to those who explore its contents. Read carefully, and handle with care. And as you thumb through each of its many unique pages, remember that all those wondrous activities that you undertook, and all those marvelous persons you knew at dear Old Foster High, are included among them. With this golden memento you will be able to keep your friends forever.

This is our gift to you, treasure it forever.

DEDICATION

With great pleasure, the graduating class of 1970, dedicates the 1970 Bulldog in memory of one of the outstanding educators of the twentieth century, Luther Hilton Foster. His entire life was devoted to the highest degree of education for all boys and girls in the state of Virginia.

We are placing a copy in our school library, and asking that a copy be placed in the library among his memoirs, at Virginia State College in Petersburg, Virginia.

ADMINISTRATION

A Message From The Principal

You are taking your places in the world at a time when there is a great intellectual, religious, and moral ferment. You will have to find your way in a complicated, but great civilization, and under varied institutions of freedom, the most perfect the world has ever known. We are asking you to take advantage of the great ballooning of opportunities for young Americans today.

Our world has suddenly become a small world, and we have, by no means, reached the peak of our destructive capacity. The unrest that is so dominant in today's world is representative of people everywhere who want to have their places in the sun.

We trust that the training which you have received here will enable you to appreciate your unusual opportunities and will make you sensitive to your obligations to your fellowman. Men and women with a thirst for knowledge will turn to you for light, and others who have no convictions of their own, and who do not know their own sentiments until they have heard them expressed by someone else, will seek you for guidance.

Your teachers and I are conscious of the problems and difficulties that confront you and will be glad to assist you in any way that we can. We trust that as you go forward, you will carry with you an abiding interest in your Alma Mater, that you will remember her in your prayers and will constantly work and live so as to reflect her noble instruction in your characters. We shall always be happy to have you visit, or write us, and let us know of your progress and your problems.

MESSAGE FROM THE FACULTY

Knowing that all of you are very enthusiastic because you have reached the goal for which you were striving, we congratulate you. Realizing that this is not the end, you must assume the responsibility to look forward to greater achievements if you work diligently.

If you desire to be successful, you must have faith in God, and have faith in yourself – believing “He can who thinks he can.” Don’t become discouraged when problems seem very difficult to solve; learn to specialize in what others may call “The Impossible.”

We sincerely hope that the knowledge that you have acquired here will pay rich dividends in the future because educational opportunities are increasing; therefore, you must prepare to avail yourselves of these opportunities. Now is the time to prepare for the future so that your hopes and dreams may become realities.

In your continued quest for knowledge, you may find peace and understanding.

Signed . . .

CLASS POEM

With heavy hearts and saddened faces,
We walk through deserted halls,
And we know it's not the end,
So we go where duty calls.

We're going on to better things,
But we never will forget
How much we really learned here,
So we leave without regret.

Dear Foster, you've prepared us,
For most anything that may occur
We Have been made ready for anything we meet,
We'll hail without defeat.

We'll miss the bells and the teachers
And the sweet music of your song
So we won't say Goodbye Dear Foster,
Just "so long dear school, so long."

CLASS SONG

(Tune: Old Christmas Tree)

Oh, Foster High, Oh Foster High
It's time for us to leave you.
The thoughts of leaving at this time,
Leave memories so far behind.
Oh Foster High, Oh Foster High
It's time for us to leave you.

Oh Foster High, Oh Foster High
You've taught us how to love you.
For all the knowledge that we've gained
Makes us sorry we can't remain.
Oh Foster High, Oh Foster High
You've taught us how to love you.

Oh Foster High, Oh Foster High
The past is ours to treasure.
We've tried to do our very best,
And very glad to have been your guest.
Oh Foster High, Oh Foster High
The past is ours to treasure.

Class History

It was a warm September 2, 1965, that one hundred and nine shipmates boarded the ship of Knowledge and began our voyage to higher education. Luther H. Foster High School set in the harbor awaiting our arrival. This ship has carried many to the harbors of higher education. Many persons were there to greet us and advise us, but the voyage was ours and only we could complete it.

For most of us, our first year was full of joys and pleasures. Those who didn't enjoy exciting and challenging adventures were tossed into the seas or became sea-sick when high tides and waves made the seas rough. With the help of others, they were able to overcome and continue along with us. Many times, we were tempted to throw our most valuable possessions over board, but with faith and help from our parents, sponsors, and principal, we were able to turn back in the right direction.

Marie Bowler was a contestant for May Queen; she won for our pre-freshmen class. We entered our freshmen year. As freshmen, we participated in various activities and clubs. The activities and clubs helped to ease the rough seas, especially, when it was meeting time.

During our Sophomore year, James Rowe won second place in public speaking. This conference was held at Longwood College. From there, he participated in the National Region of Public Speaking which was held in Richmond, Virginia. Other members of our class participated in the Math and Science Conference at West End High School in Clarksville, Virginia.

During our Junior year, six of our shipmates were elected into the Elite Chapter of the National Honor Society. They were Diane Johnson, Bertie Robertson, Pauline Fowlkes, Phyllis King, James Rowe and Clifton Hawkes.

We presented a dynamic talent show in the auditorium of the ship; this was a great success. It contributed greatly to the expense needed to leave the ship to go to the small island called the "Blackstone Community Center" where we presented our Prom. The theme was "Shower of Stars."

On September 2, 1969, only seventy-two of our shipmates were left to continue our complete voyage. We are Seniors now, and most of us see the shore. Many thanks go to our parents, sponsors, principal, and class officers.

We will always remember the ship, Luther H. Foster High School, and the struggles we had on the voyage.

It is now our responsibility to drown, swim or ride the ship to success. We are planning to anchor on the shore of success.

Class Prophecy

It is the year 2001. As we gaze into the crystal ball, we begin to get a better view. The people and the places are becoming clearer now.

We, the famous Spirits; John Davis, Elaine Stewart, Evelyn Wilson, and Nancy Vaughan are seeing the future before us in our mighty Crystal Ball. As the fog clears away, we see Charles Lambert, and Edward Pritchett as Private Engineers to our President of the United States, Clifton Hawkes.

As we look on, we see Lee Parker drilling for water. Rutherford Vaughan and Thomas Harris were drilling on an enormous structure which is to be the Sport's Hall of Fame, which will have the pictures of Pro-Football players, Leslie Woodson, Phillip Warren, Frank Robertson, Garland Wells and Lloyd Green.

Suddenly we see Robert Stokes, driving a 2001 Computer car, designed by the famous auto salesman, Thomas Tabon. John Davis, then noticed a billboard with pictures of Barbara Jones, and Diana Johnson who were to model fashions designed by the famous designer, Gloria Venable.

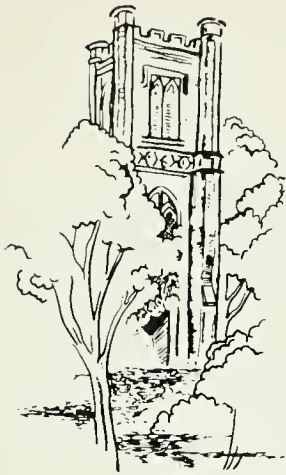

Looking further, we see the spaceswingers, featuring John Davis, Elaine Stewart, Lorenzo Morgan, and Rosa Pettis singing their top hit, "Whatever Happened to James Brown." Their private beautician is Martha Thompson and barber, Jairus Oliver.

Opps!!!, cloudy again, but wait! We now see a large underground duplex of business spooks, Carolyn Hobbs, Evelyn Wilson, Herbert Maddux, Howard Marshall and Kenneth Harris. Their competitors are executives in the twenty billion dollar CDSEC (Computer Data Scientific Electronic Company) which are Nancy Branch, Marie Bowler, Linda Hurt, Barbara Nunnally, Mary Sue Hawkes, Barbara Fowlkes, Connie Johnson, Bertie Robertson, and Mazie Campbell. We also see the Watson Technological Center of Surgery. Chief Surgeon and Founder, Bernice Watson and her assistants, Joyce Green and George Fowlkes were transplanting a liquid heart in Ruby Hicks. The nurses within this hospital were: Mary Jackson, Lillian Blackwell, Beverly Fitzgerald, Beverly Johnson and Nancy Vaughan. Due to the fact that there was a failure in the operation, the patient died and our famous undertaker, Rudolph Hawkes and his assistants Mary Hatchett, and Richard Fowlkes appeared on the scene after sitting impatiently in the waiting room. On the sixth floor, our outstanding dentist, Morris Lee, was pulling Mae Helen Johnson's wisdom tooth.

The letter "M" appears. Now we see it, Moser University. There's Dr. James Rowe, newly elected president, with his staff members. There were Rose Allen and Robert Vaughter representing the Math Department, Doris Hobbs and Ruth Coleman, French instructors; Pauline Fowlkes, librarian; Phyllis King, accountant; Sandra Knight teaching Black History; Wanda Parker Head of the Science Lab; Lorenzo Fitzgerald head of the Physical Ed. Dept., Michael Bagley, the philosopher, and Russell Jackson and William Clarke, heads of the Art Dept.

Now the crystal ball takes us to the Pentagon where we see the Army General, Lewis Berkley; Air Force General, Danny Elder and Navy Captain Jimmie Coleman. On the flip side of the crystal ball, Ambassador to Africa, Alfred White, is taking a trip to Finland.

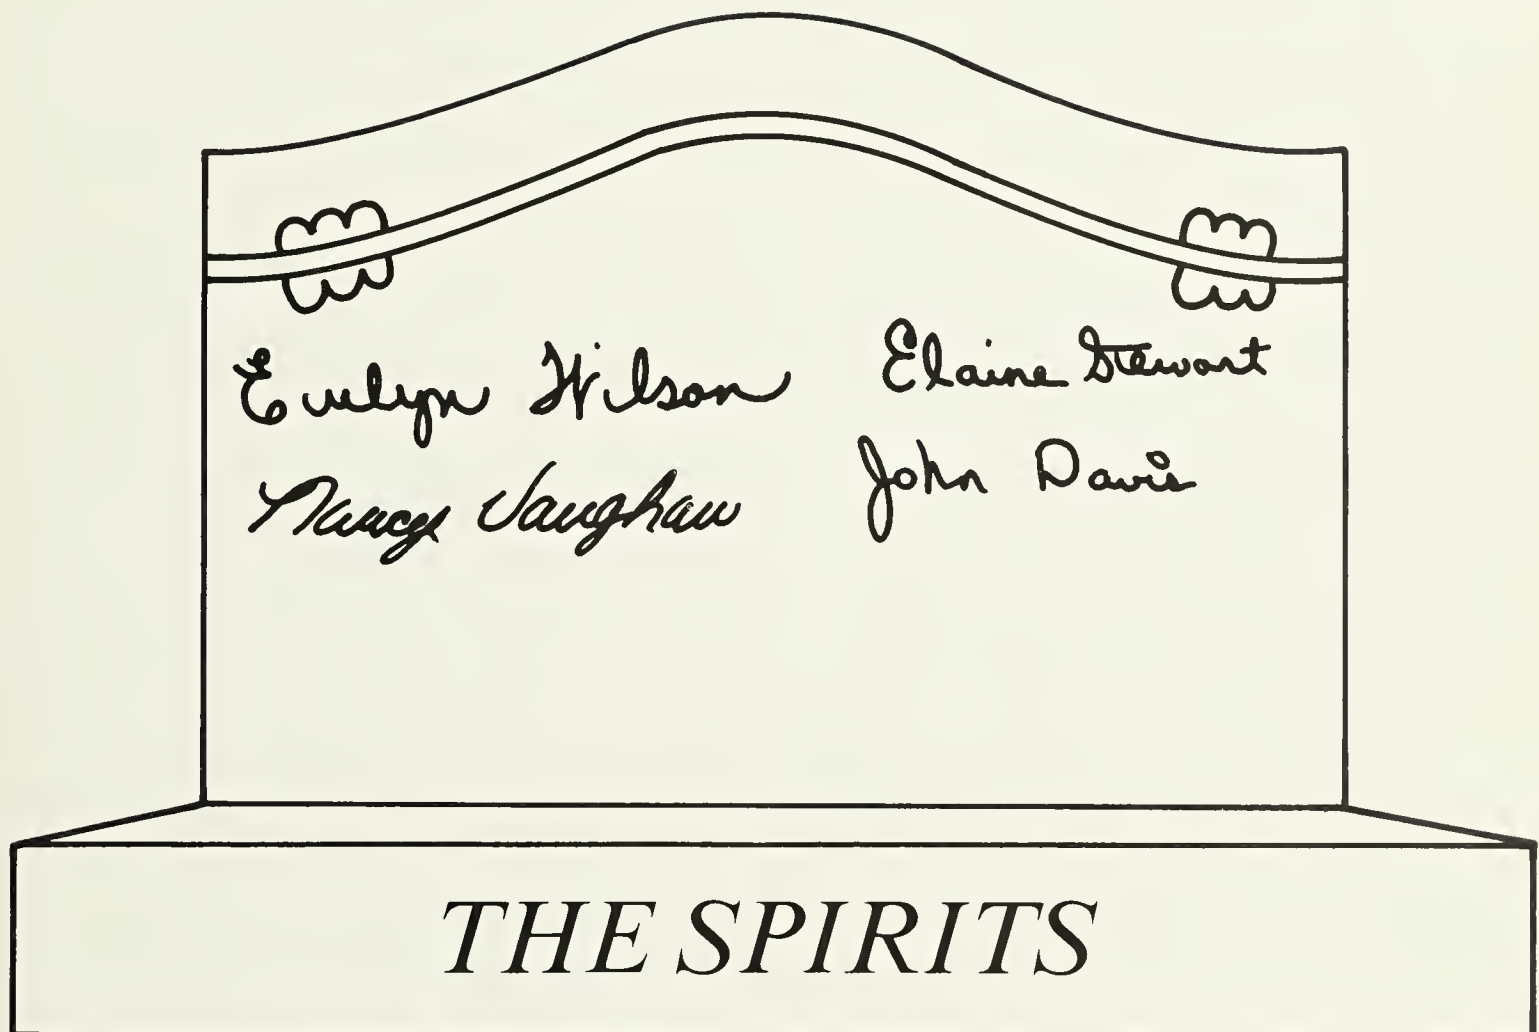

His stewardesses are Eyvonne Chester, Lillie King and Hannah Stokes. The Spirits were all excited about what they had seen, and then suddenly, Elaine Stewart knocks the crystal ball over and it all goes up in smoke.

CAMPUS LIFE AT FOSTER

Now the day begins . . .

Getting prepared . . .

Work, work, and more work!

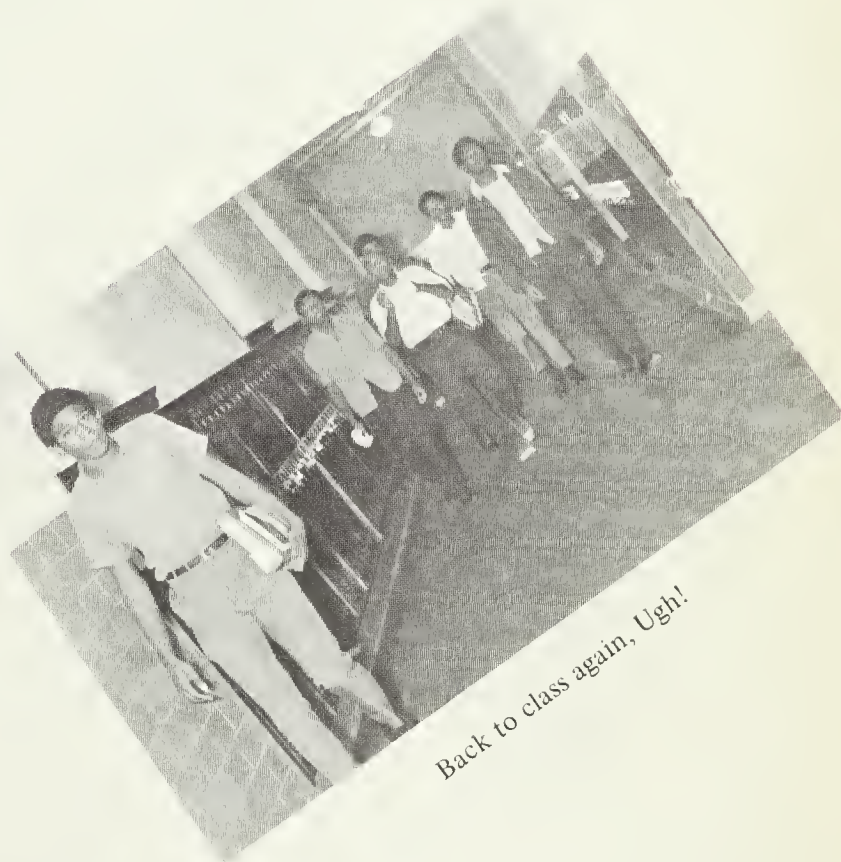

At last, a break!

On our way to . . .

Corbread, beans, buttermilk . . .

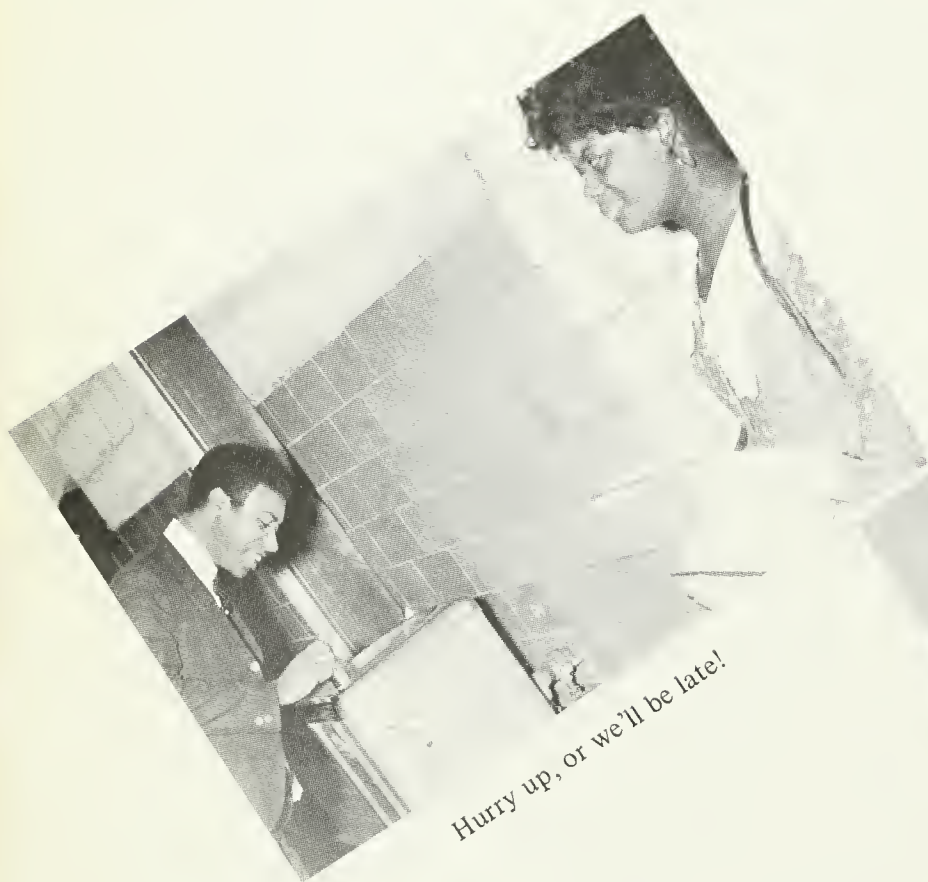

Back to class again, Ugh!

Brain POWER

Here we go again . . .

Hurry up, or we'll be late!

Alright, where's your excuse?

The day ends . . . at last!

Seniors, Rudolph Hawkes, and Clifton Hawkes, are actively making preparations for their well awaited trip to Europe. At the end of every rainbow there is a pot of gold, and after twelve long years, Rudolph and Clifton are about to embark upon theirs. Mrs. M. D. Moser, French instructor, has devoted a lot of time in arranging for the departure of these two esteemed travelers.

We, the Senior Class, would like to bid them both a pleasant trip and a safe return. Bon Voyage!

Guess Who

Farewell Message

We, the Graduating Class of 1970, would like to express our sincere and humble thanks to our parents, who have given us that lingering support which has enabled us to endure the trials of education. We know that without their love, and their consideration, success would be a difficult path to follow.

We would like to thank all of our teachers who have worked so faithfully and diligently that we might be mature, and intelligent young men and women. They also who have related from their own knowledge and experiences, the elements of learning, which have been instigated in our minds as the foundation for success. We are indeed grateful to you.

To all our schoolmates, those who have already gone out in life and to those who still remain, we want you to know how much we have appreciated your smiling faces. It was your presence that made our high school days such enjoyable ones. It was through your friendliness and cheerfulness that we were able to maintain a sound mind and loving hearts. You will always be remembered by us as the most inspiring schoolmates anyone could have. Our memories will be golden, and our friendship is bonded with steel.

We have come to these days not only with a sense of accomplishment, but even more with a sense of challenge and promising perspective. We have traveled twelve miles of the journey and yet our route has only begun. Now that we have reached the crossroads, it is up to each of us to decide which road he will travel next. However, our learnings and preparations here at Foster High, have guided our path toward the road to success. Join us in the future.

Hi. Michael,

The years that I have known you have been the most wonderful years that I can remember, especially last year. I wish that our wonderful relationship could have continued but as fortune has it we didn't. If I could relive the past years that I have known you, I would only change one thing, and I think you know what that is.

Even though we have had our bad moments there have also been a few good ones and I hope that you will always cherish them as I have. I wish we were able to share many more happy times together for you are the type of person that any girl would love to have as a dear friend and companion.

I know that soon the time will approach for us to part and you will reach your destination and I hope that I will reach mine. But as long as I live, there will be a warm place reserved in my heart only for you, even though you might not believe it.

When we part I hope that you never forget what we shared even though it wasn't long it left a permanent crease in my heart that will never disappear. Always keep in touch.

Always Love,
Rose

Hi Michael,

the more wonderful pleasure knowing that you want me to autograph your yearbook. The "off and on" years I have known you have been quite rewarding. Because you are a real neat fellow and have this "thing" about you that seems to be half way kind of decent.

Hi Michael!

Knowing you these past few months has really been a drag, no really they have been just "great." You are a very kind and sweet person. Michael although we will be apart there is always a place in my heart for you. The few moments we have shared together were most enjoyable and will always be cherished. I hope our wonderful relationship will always continue.

I wish we could have shared more moments together, but time just seemed to slip away. When you go away, I hope we will keep in touch.

A wonderful person like you deserve the best. I strive for the best that life has to offer and with determination you will get it.

Corn grows tall,
Cotton grows thick.

My feelings for you
Make other girls sick!

Best Wishes

and
Success.

"Love you always,"

Gwen
